"BUILD YOUR DREAMS WITH THE STRENGTH AND BEAUTY OF OUR STONES"

## ABOUT US

The Parse Stone brand draws inspiration from the city of Parseh (Takht-e Jamshid), which was constructed in 518 BC as the new capital of the Achaemenid Empire. The city was built from several palaces using huge and beautiful stones, which were sourced from the best stones of the land. Despite several decades of successful experience in extracting and processing building stone and employing professional experts, Parse Stone intends to repeat the story of the city of Parseh with high-quality stone mines, so that it will be remembered throughout the world.

In 2002, Mr. Karimi established the first stone factory to exploit special quarries and process high-quality stones. By establishing a group of professional suppliers and big and worthy quarries, Parse Stone has become one of the most powerful stone teams in Iran. Using the latest technology, the company has decided to present and export all sorts of quarry blocks and cut-to-size tiles, slabs, and customized items to international markets. Please visit our website and let us know your comments and inquiries.

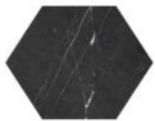

## Floor / Wall Tiles

available sizes/in stock

30*30	30*60
40*100	60*120
